

# GX200L

16"/40 cm

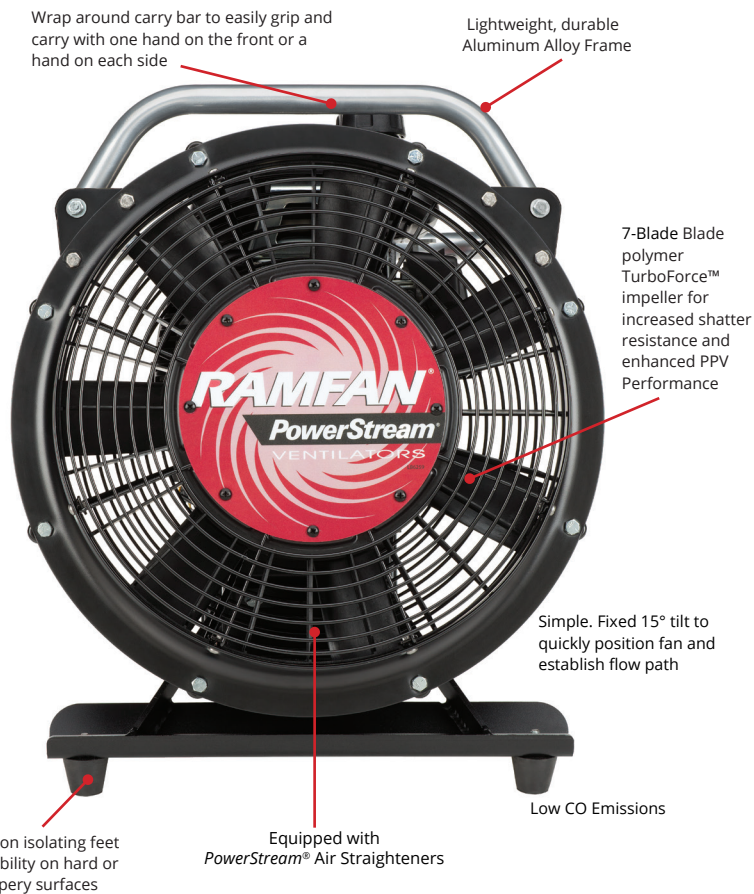

*Ultra Lightweight PPV Blower*

RAMFAN offers the lightest PPV fans on the market, providing the ultimate portability. Starting at only 36lbs, the GX200L can easily be carried with one hand. Light enough to carry up stairwells and deploy in large commercial buildings or powerful enough for PPV in residential houses.

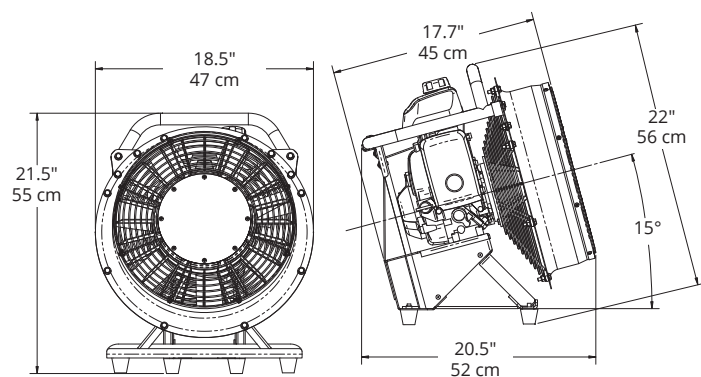

Equipped with PowerStream® air straighteners that tighten the airflow to keep it focused over longer distances without losing significant power; permitting unrestricted setback from the access point, reduced interference with communication and flexible positioning.
