ENVIROMENTAL AND SUSTAINABILITY STATMENT

EURAMCO GROUP recognizes the importance of environmental responsibility and sustainable business practices in the design, manufacture, supply and service of industrial machinery.

We aim to minimize the environmental impact of our operations, promote the efficient use of resources, reduce unnecessary waste and support customers throughout the operational life of our products. We remain focused on identifying practical opportunities to improve our environmental performance and to comply with applicable environmental legislation and regulations.

We are committed to:

- Use recyclable or recycled materials.
- Reduce plastic packaging.
- Minimizing waste during manufacturing.
- Purchasing materials locally where practical to reduce transport emissions.
- Recycling scrap materials.
- Combining deliveries to reduce the number of journeys.
- Using efficient transport routes.
- Working with suppliers that follow environmental standards.
- Offering maintenance and repair services.
- Supplying spare parts for older equipment where available.
- Providing technical advice to maintain efficiency and prolong equipment life.

Regulatory Compliance. EU Waste Electrical and Electronic Equipment (WEEE).
WEEE Reg. No. DE 76703319

Self-Declared Compliance. PPWR Regulation (EU) 2025/40.
