

EFi120xx/EFi150xx

16"/40 cm

Blower/Exhauster

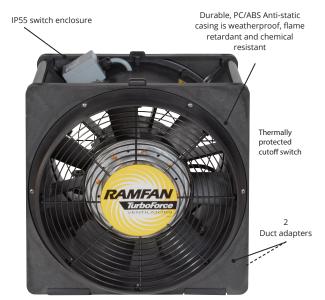

The electric powered EFixx Series hazardous location blowers/exhausters, with **whole-unit certification**, are intended for use in Adverse Atmospheres in accordance with the limitations of the rating. The whole-unit certification not only provides protection and peace of mind to the user; it also prevents suppliers from being linked to the chain of liability.

The largest hazardous location blowers for highest volume of air movement. Use the EFi150xx (1.5 Hp) model for higher velocities, increased volumes and reduced purge or cooling times. 16(40 cm) integrated duct adapters. Stackable in storage or during operation.
